AUSTRIA IS GIVEN FIFTEEN DAYS TO REPLY TO ALLIES

(By Associated Press)
ST. GERMAIN, June 2.—Austria has been given 15 days to reply to the peace terms presented today by the allies. Premier Clemenceau, President of the peace conference was the first prominent figure to arrive. A punctured tire delayed the ceremony of presentation somewhat. The throng that packed the hall detracted somewhat from the impressiveness of the ceremony. Clemenceau spoke only three minutes. Dr. Karl Renner, Austrian chancellor, opened with a complaint at the delay in the presentation of terms. He declared the Austrian republic entirely free from the Hapsburg dynasty. He declared the nation would never have declared the war itself.

The limit set affected only that portion of the terms handed Austria. Military reparations, financial and certain foundry clauses have not been completed. They will be delivered as soon as ready.

The treaty in many respects is identical with the German. Austria is left a state of more than 6,000,000 people, with a territory of more than 100,000 square miles. She is required to recognize the complete independence of Hungary, Czechoslovakia and Serb-Croat-Slovene states, and cede other territory which formerly was embraced in the empire of Austria-Hungary with its population of more than 50,000,000. Austria is recognized as a new, independent state under the name of the Republic of Austria. The nation will be required to demobilize all naval aerial forces.

NO STRIKE OF WIRE OPERATORS

(By Associated Press)
WASHINGTON, June 2.—S. J. Konstant, president of the Commercial Telegraphers' union, said no date had been set for the National Telegraphers' strike and that the threatening walkout at Atlanta was purely local. Director General Burleson announced that if telephone operators at Atlanta were dismissed because of union affiliations, they would be reinstated immediately and steps taken to discipline the responsible officials of the Southern Bell Telephone company.

CHIHUAHUA CUT OFF ON THE EAST

(By Associated Press)
JUAREZ, June 2.—It is reported from trustworthy sources that the forces of Generals Villa and Angeles attacked Chihuahua City yesterday, fighting still in progress. Communication between Juarez and Chihuahua is cut off and the Mexican federal authorities are attempting to restore the line.

LEAGUE OF NATIONS STYLED GIGANTIC WAR TRUST BY SENATOR

(By Associated Press)
WASHINGTON, June 2.—Senator Johnson of California told the senate that the league of nations was a combination of armed powers in a gigantic war trust. He said the Paris conference dared not amend the covenant as a declaration of future wars would be decided, not by established rules, but by popular vote of the peoples concerned. He asserted "It is not a league to prevent war. In its very creation it had been stripped of every idealistic purpose it ever had. It contains the germs of many wars. Worse than that it reveals as in the Shantung decision the chains of tyranny upon millions of people and cements for all times an unjust and wicked annexation."

JIMMY GRIMES IS REMEMBERED

James Grimes of Divide fame was surprised by his friends Friday night when he was invited to a dinner in the Mizpah Grill and decorated with a magnificent gold watch accompanied by an Elk's tooth charm and an Elk's card case. The presentation was made by William Forman, the attorney who officiated as chairman and addressed himself in passing a compliment to the "Daddy of the Divide." Those present were William Forman, Frank Taylor, Dr. T. A. Muscare, Richard Finn, Harry Dunsmuir, Edward Burns, George J. Lewis, Dr. J. R. Cunningham, Owen Dougherty and W. Gomm. The guest of honor was unable to express himself except to say that he did not deserve the kind consideration so generously manifested. Mr. Grimes is not a member of the Elks yet but will be received into the order tomorrow night, according to social invitations sent out by Secretary Daniels. It had been arranged for the candidate to be initiated two weeks ago when a big bunch entered, but Mr. Grimes could not arrive in time from San Francisco where he was detained by urgent business.

HEAT AND RAIN RECORDS BROKEN

Last month was the hottest and wettest May in the record of the local United States weather station, according to the monthly review compiled today by the resident observer. Notwithstanding this heat the percentage of sunshine was only 57 with ten days showing 100 per cent. The highest temperature was 84 on the 27th and the lowest 35 on the 31st. The greatest daily range was on the last day of the month when there was a difference of 31 degrees between the highest and the lowest. The mean temperature for the month was 66, making it the highest recorded with the exception of 1910 when the mean was 67. The absolute maximum for the month was 94. The excess of heat was 6.9 degrees. The total precipitation was 1.36 inches of which .76 fell on the 28th and following day. This is the greatest rainfall at this station in thirteen years. The only other year in which one inch was exceeded was in 1913 when the precipitation was 1.11 inches. For the last five years the rainfall was as follows: 1914, .28 of an inch; 1915, .35; 1916, .26; 1917, .39; 1918, .34. The maximum velocity of the wind was 40 miles per hour from the northwest on the 30th. Thunder storms occurred May 20, 21, 22, 23, 24 and 25.

FORECAST FOR THE WEEK

Southern Rocky Mountain and Plateau Regions: Temperature below normal during the first half, normal second half of the week; generally fair weather.

regarding "open diplomacy," in urging the adoption of his resolution asking the state department for a full text of the peace treaty. He said "open covenants are openly arrived at, are now a byword and a joke. Their intention brings but a cynical smile."

ENVY GOES TO VISIT KOLCHAK

(By Associated Press)
PARIS, (Sunday), June 1. It seems improbable that Wilson will sanction further steps toward the recognition of the Kolchak government until American Ambassador Morris in Japan reaches Omsk from Tokio. The president is anxious to have a report from Morris after the latter fully discusses the situation with the Kolchak cabinet and investigates conditions at Omsk. Probably it will be a week before Morris reaches Omsk.

NO BUFFER STATE ON WEST FRONT

(By Associated Press)
BERLIN, (Sunday), June 2.—In an interview today Chancellor Scheide mann said the imperial government received no hint or indication from the entente that the establishment of a West German buffer state would tend to mitigation of peace terms. The creation of such a state, he said, would tend to disruption of the empire.

FIND SAFETY ON AMERICAN SIDE

(By Associated Press)
JUAREZ, Mexico, June 2.—Colonel Escobar, commanding the garrison at Juarez, admitted that he has had no communication with Chihuahua City today. A military train sent to Juarez after having gone about 26 miles south. Residents are sending their belongings and families across into American territory, although there is no report of the Villa forces being near.

(By Associated Press)
DOUGLAS, Ariz., June 2.—It is unofficially reported among the Mexican authorities at Agua Prieta, Mexico, opposite Douglas, that the Yaquis have joined the Villa column, which recently left tonight and attacked several villages south and east of Guaymas.

REVOLUTION IN COSTA RICA RECEIVES RECOGNITION

(By Associated Press)
SAN SALVADOR, June 2.—The governments of Guatemala, Honduras, and Nicaragua have recognized the belligerency of the anti-Tinoco revolutionists in Costa Rica, according to a dispatch from Nicaragua. Advises said the revolutionists have received appreciable reinforcements.

FILIPINOS ASK INDEPENDENCE

(By Associated Press)
WASHINGTON, June 2.—The Philippine mission to the United States will present to the joint investing committee on the Philippines and the house committee on insular affairs a memorial asking for immediate and complete independence of the Philippines.

NEW REPUBLIC ON THE RHINE

(By Associated Press)
PARIS, June 2.—Coblentz will be the capital of the new Rhine republic which was proclaimed yesterday in several Rhine cities. The new government and national assembly met there but the provisional government will sit at Wiesbaden. A portion of the proclamation received in Paris said: "We declare the Rhineish republic to be founded on the bosom of Germany. Is a pacific republic, which is composed of the Rhineish provinces, old Nassau, Rhineish Hesse and the Palatinate."

PAN-AMERICAN UNION HELPED

(By Associated Press)
WASHINGTON, June 2.—The linking of the Americas was made a physical reality today at the opening session of the second Pan-American Commercial Congress by the establishment of direct cable communication between the pan-American building where the international gathering assembled and the countries of South and Central America. The gathering discussed in a practical way the trade development between the United States and Latin America.

NORTHERN BOAT RUNS AGROUND

(By Associated Press)
SEATTLE, Wash., June 2.—Word has reached here that the Alaska bound passenger ship, "Northwestern," is aground in the Wrangell Narrows. The steamer "Seattle," south-bound, answered wireless distress calls and took on the Northwestern's 200 passengers.

NO ADRIATIC SETTLEMENT

(By Associated Press)
PARIS, June 2.—The Austrian terms were presented with the problem of the Adriatic claims of Italy still unsolved.

NORWAY REFUSES

(By Associated Press)
PARIS, June 2.—Norway has refused to join the blockade of Germany in case the German delegates refuse to sign the peace treaty.

MRS. STOCKER COMPETENT TO HANDLE ESTATE

(By Associated Press)
LOS ANGELES, June 2.—Superior Judge Rives denied the petition to have Mrs. Clara Baldwin Stocker declared incompetent to handle her \$10,000,000 estate inherited from E. J. (Lucky) Baldwin.

ROSETTA COMPLETES SURVEY

Superintendent Dave Murphy reports that the Rosetta shaft is down 145 feet in a broken formation with \$6 values. The survey for patent has been completed.

94,500 SHARES SOLD ON BUOYANT MARKET THAT CLOSED STRONG

Divide Extension was the sensation on the San Francisco Stock Exchange this morning when the quotation shot up to 91 from 52 bid at the close of business Thursday afternoon. Saturday night it was hinted that there was something doing on that property but the most diligent inquiry failed to elicit any official information. Zeb Kendall, the leading spirit of the company, was all smiles when he left Tonopah Sunday morning but he could not be induced to say anything further than "watch Extension Monday morning."

The sudden enhancement was due to the high values found in the Caldwell shaft sunk on the surface where it was reported six days ago that the indications were favorable for opening a high grade ledge. Last Friday in extending the east crosscut from a depth of 50 feet in the Caldwell shaft an ore body was encountered two feet of which ran at the rate of \$100 per ton on a conservative basis. In addition to this two feet there was a six inch streak of ore that yielded at the rate of \$1000 with the values in gold and silver going about 50-50. In the west crosscut in the same zone the last four rounds assayed \$10, \$11, \$32 and \$15. It is impossible to tell the extent of the ledge.

NEWBERRY HELD FOR CONTEMPT

(By Associated Press)
WASHINGTON, June 2.—In the contempt proceedings in New York, growing out of the Ford-Newberry senatorial election contest in Michigan, the supreme court sustained a contempt judgment against the Newberry campaign managers.

The supreme court upheld the dismissal by the federal courts of labor corpus proceedings by Edward Rumley, formerly publisher of the New York Mail, to prevent his extradition to Washington from New York to answer indictments charging violation of the trading with the enemy act.

RATE ADVANCES ARE SUSTAINED

(By Associated Press)
WASHINGTON, June 2.—The supreme court today upheld the freight and passenger rate increases made by the railroad administration last June and the increase in telephone and telegraph rates made January 1 by General Burleson. The court held that the railroad legislation conferred on the president "supreme and conclusive" powers. It also ruled that the wire control resolution granted authority to interfere with intrastate rates.

SIMON MINE CROSSCUT STILL DRIVING IN ORE

A wire received this morning by W. J. Douglass from C. C. Boak stated that the crosscut in the Simon mine had been extended 130 feet and still remained in ore without finding the hanging wall. Superintendent Schiffer reports a better and more solid ore in the face than anywhere else in the mine.

SPECIAL INITIATION B. P. O. E.

The Elks will have a special initiation tomorrow evening at which all resident and visiting members are urged to attend.

which is being worked with hand steel and windlass. The shaft was started two months ago on the occasion of a previous excitement over finding high values in a ledge cropping at a distance of approximately 450 feet from the main working shaft. During the two months in which the hole was going down over three weeks were lost by the difficulty of procuring labor. In the big main shaft the company is in the fractured zone at a depth of 400 feet with values showing from \$1 to \$4.

The demand for Divide Extension was of the most spectacular order. The first report came in announcing the sale of 13,000 shares at 80 cents which set the pace for the day. The rush of buying orders most of which were placed at a limit below the opening resulted in a decline to 78. Then when the buyers realized that the market was in action and that no one could climb aboard without quick action and the limit orders were changed to buy "at market" which caused the price to advance to 91 with a slight reaction at the close when the quotation was marked up strong at 90 bid.

The total sales of the day aggregated 94,500 shares of which 34,000 shares were of Extension. Another Zeb Kendall stock was in demand at a slight improvement over last Thursday's close owing to the fact that \$4 values had been found in the shallow shaft where the company is about to begin deep sinking.

This establishes an auspicious opening for a week that may be filled with great sensations owing to the discovery on East Divide holding stronger than ever with a showing of \$7 in the face and no hanging wall in sight. East Divide opened at 38, sold up to 44 dropped back to 40 and closed at 41.

Divide Consolidated reports cutting a four and half foot vein at a depth of 70 feet with values of from \$7 to \$9. The vein is dipping to the north and appears quite strong.

Ed J. Roberts, engineer for the Belchers was out at the property this morning to see about installing the equipment on the Belcher Extension, which began to day and in the course of his examination picked up several good pieces of ruby silver ore which he thinks came from near the bottom of that shaft. As soon as the surface improvements are completed the work of retimbering will begin and be rushed as fast as men and money can do it. The entire machinery including hoist and compressor are at the railroad depot.
